SUMMARY

Senior Frontend Developer with **3.5+ years of experience**, having contributed to both service-based and product-based companies across a diverse range of projects.

PROFESSIONAL EXPERIENCE

Senior Frontend Developer

01/2025 – Present

Space Live Productions [🔗](#)

Dubai, UAE

- **Led frontend development** of a gaming and live-streaming platform from the ground up using **React and Next.js**.
- **Designed and implemented the application architecture**, built the frontend with a strong focus on **SSR and Next.js server-side development**.
- **Designed and developed the product UI**, including the main platform, dashboard, and a **3D animated landing page**.
- **Integrated playable games and live-streaming functionality**.
- Developed **server-side functionality and API integrations** in Next.js, handling data flow between the frontend, backend services, and third-party integrations.

Frontend Developer

01/2024 – 01/2025

Octet Solutions [🔗](#)

Lahore, Pakistan

- Led frontend development of **eFone**, a social media application serving users across the **US and Canada**.
- Owned the **frontend architecture and UI development**, building a scalable application using **React, Ant Design, and SCSS**.
- Implemented **real time chat and calling capabilities** using **WebSockets and Twilio**.

Associate Frontend Developer

03/2023 – 12/2023

Techset Solutions [🔗](#)

Lahore, Pakistan

- Developed **SaaS applications, dashboards, landing pages, and interactive web applications** using **React, Next.js, and Vite**.
- Built **responsive user interfaces** with a focus on clean implementation, scalability, and engaging user experiences.
- Collaborated across multiple client projects to translate designs and product requirements into **responsive, production-ready** interfaces.

TECHNICAL SKILLS

- **Languages:** Javascript, Typescript, HTML, CSS
- **Frameworks:** React.js, Next.js, Vite.js
- **State Management:** Redux, RTK Query, Context API
- **UI & Design:** SCSS, LESS, Tailwind CSS, Material UI, ANTD, Bootstrap, Shadcn
- **Integrations:** Twilio, JsSip, Firebase, SSO, OAuth, OpenAI/ChatGPT, Apex Charts

NOTABLE PROJECTS

Fantasia - Gaming & Live Streaming application

Built the product frontend, dashboard, and landing page using **Next.js**. Integrated playable games and implemented **live streaming**

eFone - Social media web application

Architected and developed **real-time chat and calling** using **WebSockets** and **Twilio**, while building the responsive UI and global state management with **React**, **Ant Design**, **SCSS**, **Redux**, and **Context API**.

Florence - Healthcare Product

Developed a **Copilot chatbot** in React and integrated as a **micro-service** in a Java based product, enabling users to perform actions such as placing orders, managing tables, and interacting with workflows through conversational commands.

Capabara - Data Governance Dashboard

Developed the complete **Next.js dashboard**, including authentication, hierarchical data tables, file management, and a ChatGPT-like chatbot, using **Ant Design**, **Tailwind CSS**, and **Redux**.

StockAI - AI-Powered Stock Market Dashboard

Led frontend development of a **stock analytics dashboard and AI chatbot**, implementing real-time visualizations with **ApexCharts**, OAuth/SSO authentication, multilingual support, and an animated landing page.

EDUCATION

Bachelor of Science (B.S.) in Computer Science

Lahore, Pakistan

Virtual University of Pakistan

COURSES

Frontend Web Development

2022 – 2023

Scrimba

Full Stack Web Development

2021 – 2022

PNY Trainings, Arfa Software Technology Park
